This Competition is organised by
the Financial Services Fund (FSF)
operating under the Financial
Services Commission (FSC),
Mauritius.

Financial Services Fund

operating under the
Financial Services Commission, Mauritius

Closing date
for submission of works

Wednesday, 30 June 2021.

Objectives

The FSF and the FSC Mauritius intend to develop a financial literacy mobile app game, and to this purpose, a hi-fidelity prototype is expected from candidates.

Objective of the competition:

- to inform and educate the general public on financial planning, savings and investment mechanisms, through immersive experiences.

General Guidelines

The mobile app game may be based on any financial services activity for example:

- Expense Tracking
- Saving Assistance
- Budget Assistance
- Investment Simulations
- Any other relevant item

Note: The mobile app game must be native to IOS and ANDROID and be used on tablets as well. The mobile app game must be compatible with Huawei smartphones also.

Concept

- Hi-fidelity prototypes for the financial literacy mobile app game can be designed by using any specialised software or can be in the form of a website with all main functionalities.
- The prototype must show the UI design, the user flow, and the planned functionality of the potential mobile app game.

Concept (Cont.)

UI design

Page layout, design, colour scheme, spacing and positioning must be defined

Web interaction and mobile gestures

Any type of interaction, mobile gesture and animation that can make the user experience a pleasurable one.

Concept (Cont.)

Data visualisation

Scores, rewards
and
leaderboards
etc.

Device simulation

Show how the mobile app
game will run on various
operating systems and
platforms. Leverage native
features. Make maximum
use of native features of IOS
and ANDROID.

Concept (Cont.)

Form prototyping

Any registration or feedback form must be prototyped, explicitly displaying inputs and outputs.

Notifications

The mobile app game will have to engage users; hence the use of notifications. Prototype must display this mechanism.

Social media sharing

User must be able to share experiences and/or content on social media. Prototype must display at least 2 examples.
