In line with the Government vision to make Mauritius an International Financial Centre (IFC), FSC Mauritius has since 2008, designed and launched a Young Graduate Development Programme (YGDP) in order to create a pool of talented young graduates to serve the sector.

The YGDP is a one-year, non-renewable training contract which has been especially designed using a mix of both practical hands-on experience as well as structured training sessions including lectures, seminars, workshops and case studies. The aim is to enable trainees to gain hands-on practical experience, and acquire a deeper knowledge of the Commission's functions in order to build a solid foundation for a career in the financial services sector.
